

Toppling furniture and TVs can kill

Children under the age of 10 are most at risk.

Australia: Up to **two children die every year** from furniture or TVs toppling over. An estimated **2600 consumers** are injured by toppling furniture or TVs every year.

USA: **Every 30 minutes**, tipped furniture or a falling TV sends an injured child to the emergency room. One **child dies every two weeks** due to a TV or furniture tip-over.

Korea: Over **200 injuries** have been reported to the Korea Consumer Agency relating to furniture and TV tip-overs.

Canada: In the last 6 years, Health Canada received **three reports of TV tip-over deaths**. Also, over **230 emergency visits** were linked with dresser tip-overs.

Japan: Over **40 cases** were reported relating to furniture and TV tip-over related injuries between December 2010 and August 2017.

Tip-over incidents are 100% preventable.

Safety tips

- ✓ Secure TVs and furniture with **anchoring devices**.
- ✓ Purchase **low-set furniture** or furniture with sturdy, stable and deep bases.
- ✓ Install **child-resistant drawer locks** to prevent drawers from being opened and climbed on.
