Introduction	11
Chapter 1. The Concept of Economic Globalisation and its Measurement	15
1.1. The concept of economic globalisation	16
1.2. Why does measuring economic globalisation matter?	19
1.3. A “core” set of indicators of economic globalisation	20
1.3.1. Scope, coverage and interpretation of the reference indicators.....	21
1.3.2. Reference indicators of foreign direct investment	22
1.3.3. Reference Indicators of the economic activity of multinational firms	22
1.3.4. Reference indicators of the international diffusion of technology	25
1.3.5. Reference indicators of the globalisation of trade	26
1.4. A conceptual framework for the analysis and development of economic globalisation indicators.....	27
1.5. Areas for future investigation	27
Notes	28
Chapter 2. Foreign Direct Investment	31
2.1. Introduction	32
2.2. Proposed FDI indicators to measure globalisation and core statistics.....	34
2.2.1. Rationale	34
2.2.2. Reference indicators.....	34
2.2.3. Supplemental indicators.....	38
2.3. International comparability of FDI statistics and data availability	39
2.3.1. International comparability	39
2.3.2. Data availability	41
2.3.3. FDI data sources and collection methods	42
2.4. Scope and coverage: A common framework to record cross-border investments.....	43
2.4.1. Balance of payments and international investment position.....	43
2.4.2. Financial account.....	43
2.5. Concepts and methods.....	47
2.5.1. FDI statistics according to international standards: Concepts and methods.....	47
2.5.2. Future methodological work	62
Notes	63
Annex 2.A1. Borderline Cases to be Excluded from FDI for Statistical Purposes	65
Annex 2.A2. FDI Data Sources	67
Annex 2.A3. Standard Foreign Direct Investment Components (IMF BPM5)	69

Annex 2.A4. ISIC/NACE Codes Used in OECD-EUROSTAT Questionnaire for Industrial Activities	71
Annex 2.A5. Herfindahl Concentration Index.....	73
Chapter 3. The Economic Activity of Multinational Enterprises	75
3.1. Introduction.....	76
3.2. Proposed indicators	78
3.2.1. Rationale	78
3.2.2. Reference indicators.....	80
3.2.3. Supplemental indicators.....	84
3.2.4. General considerations when interpreting indicators	87
3.2.5. Variables required, availability, priority and definition.....	88
3.3. Conceptual and methodological considerations.....	98
3.3.1. Defining target populations	98
3.3.2. Identifying foreign control of an enterprise.....	102
3.3.3. Defining the parent company and investor or unit of ultimate control.....	106
3.3.4. Classification by country of control and location	112
3.3.5. Classification by industry and product	116
3.3.6. Selecting data collection methods	119
3.3.7. Selecting the statistical unit.....	122
3.3.8. International comparability	127
Notes	131
Annex 3.A1. Approaches to be Adopted in the Absence of a Single Majority Investor...	132
Annex 3.A2. MSITS Main Recommendations Concerning FATS Statistics (FATS: "Foreign Affiliates' Trade in Services")	135
Chapter 4. The Internationalisation of Technology.....	137
4.1. Introduction	138
4.2. The proposed indicators	138
4.2.1. Describing the proposed indicators	139
4.2.2. Developing and interpreting the proposed indicators	139
4.3. Methodological and conceptual aspects.....	146
4.3.1. The internationalisation of industrial R&D	146
4.3.2. Reminder of the main distortions in international comparisons.....	154
4.4. The international diffusion of technology (technology balance of payments: TBP).....	155
4.4.1. Main categories of TBP operations	156
4.4.2. Definitions of the different transactions.....	156
4.4.3. Other characteristics of the technology balance of payments.....	159
4.4.4. Data collected in the balance-of-payments framework.....	160
4.4.5. Main limits to international comparability.....	163
4.5. Trade in high technology products	166
4.5.1. Defining high technology	166
4.5.2. Measurement issues.....	167
4.5.3. Identifying high technology sectors and products	167
4.5.4. Principal limitations of the lists proposed	170
4.5.5. Knowledge-based sectors	170

Notes	171
Annex 4.A1. Classification According to Technological Intensity.....	172
Chapter 5. Aspects of Trade Globalisation.....	175
5.1. Introduction	176
5.2. Proposed indicators	176
5.2.1. Choice of indicators.....	176
5.2.2. Reference indicators.....	177
5.2.3. Supplemental indicators.....	181
5.2.4. Experimental indicators.....	186
5.2.5. Variables required and availability	188
5.3. Conceptual and methodological considerations	188
5.3.1. Computing input-output based indicators	188
5.3.2. Measuring trade involving MNEs: global and intra-firm trade	190
5.3.3. Measuring trade in intermediate goods	196
5.3.4. Measuring intra-regional and extra-regional trade	196
5.3.5. Intra-industry trade.....	200
5.4. Guidelines for developing experimental trade indicators	202
5.4.1. Calculating trade balances based on capital ownership.....	202
5.4.2. Measuring international subcontracting.....	205
Notes	209
Annex 5.A1. Arm's Length Principle	211
Main Sources of Basic Data Concerning Globalisation Indicators	213
Notes	217
Acronyms Used in this Handbook	219
Glossary	221

Boxes

1.1. Important features of globalisation (summary).....	18
1.2. Classification of economic globalisation indicators.....	20
1.3. Proposed reference indicators	23
2.1. Proposed globalisation indicators related to FDI	36
2.2. Variables required for globalisation indicators related to FDI.....	38
2.3. <i>The Survey of Implementation of Methodological Standards for Direct Investment (SIMSDI)</i>	39
2.4. Summary of the results of 2001 compared with 1997 of the <i>Survey of Implementation of Methodological Standards for Direct Investment (SIMSDI)</i>	40
2.5. International transactions reporting system (ITRS)	43
2.6. Balance of payments statistics and international investment position	44
2.7. OECD Codes of Liberalisation	45
2.8. Balance of payments: Current account, and capital and financial account	46
2.9. Definition of residence	47

2.10.	OECD <i>Benchmark Definition of Foreign Direct Investment</i> , 3rd edition (the <i>Benchmark Definition</i>)	48
2.11.	Foreign direct investment: definitions and criteria.....	50
2.12.	Direct investment relationship	52
2.13.	Transactions between affiliated financial intermediaries	54
2.14.	Recording FDI transactions	56
2.15.	Recording direct investment income	57
2.16.	Methods of valuation of assets/liabilities	59
2.17.	Geographic classification	61
2.18.	Industry classification	62
2.A.5.1	Herfindahl concentration index.....	73
3.1.	Proposed indicators for measuring the extent of globalisation related to MNEs (For indicators of technology and trade, see chapters 4 and 5 respectively)	79
3.2.	Data required to construct globalisation indicators related to MNEs.....	89
3.3.	Recommendations for target populations in compiling country	100
3.4.	Recommendations for the target population of AMNE abroad	101
3.5.	Recommendations for identifying companies under foreign control	104
3.6.	Identifying the populations of direct investment companies and those relating to the activity of multinational firms	107
3.7.	Parent company and unit of ultimate control.....	108
3.8.	Recommendations for identifying the country of a foreign-CA in a compiling country (inward investment)	113
3.9.	Recommendations on collecting data on activity by industry and product	117
3.10.	Recommendations on data collection methods	121
3.11.	Recommendations on statistical units.....	123
3.A1.1.	Approaches for multiple shareholders (implications for enterprise control).....	133
4.1.	Proposed reference indicators for measuring the degree of globalisation of technology.....	140
4.2.	Supplemental indicators for measuring the degree of globalisation of technology.....	141
4.3.	Proposed experimental indicators for measuring the degree of globalisation.....	142
4.4.	Recommendations concerning priority data.....	151
4.5.	Recommendations concerning the collection of data of lesser priority.....	154
4.6.	The balance of payments account	161
4.7.	Recommendations concerning the collection of data on the technology balance of payments	164
4.8.	Main distortions in the international comparability of technological balance of payments data.....	165
5.1.	Proposed indicators for measuring the extent of trade globalisation	178
5.2.	Variables required to construct globalisation indicators related to trade	188
5.3.	Recommendations for measuring trade involving MNEs.....	195
5.4.	Trade in intermediate goods within the international division of production processes	197
5.5.	Recommendations for measuring intra- and extra-regional trade.....	198
5.6.	Measuring intra and extra regional trade	199
5.7.	Indicators of intra-regional trade.....	200
5.8.	The measurement of intra-industry trade	201

5.9.	Recommendations on calculating trade balances based on capital ownership	205
5.10.	Subcontracting defined <i>Subcontracting (broad meaning)</i>	206
5.11.	Main indicators of international subcontracting	208
5A1.1.	Arm's length principle	211

Figures

2.1.	Application of the Fully Consolidated System	52
3.1.	Indirect control in inward perspective: case 1	105
3.2.	Indirect control in inward perspective: case 2	105
3.3.	Indirect control in outward perspective.....	105
3.4.	Inward investment: identifying the parent company and the parent group abroad	109
3.5.	Outward investment: identifying the parent company of compiling country 1	110
3.6.	Parent company under foreign control	111
3.7.	Example of joint venture	113
3.8.	Example of multiple ownership with indirect control	114
3.9.	Example of multiple ownership with three immediate owners.....	115
3.10.	Example of multiple owners: with holding companies	116
3.11.	Example of an MNE	124
3.12.	The accounting problems of indirect control	130
5.1.	Links between GDP and exports/GDP	179
5.2.	Links between population and exports/GDP	179
5.3.	International subcontracting typology of a compiling country	207

Tables

2.A2.1.	Sources of information on direct investment (DI)	68
2.A3.1.	Balance of payments.....	70
2.A3.2.	International investment position (pages 108 and 110 IMF BPM5).....	70
2.A4.1.	ISIC/NACE codes used in OECD-EUROSTAT – Questionnaire for industrial activities.....	72
3.1.	ISIC categories requested for the collection of AMNE data in the manufacturing sector	118
3.2.	ISIC categories requested for the collection of data on foreign affiliates (ICFA) (disaggregated service sector).....	120
3.3.	Example of classification of sectors by enterprise and by establishment: the case of Germany, 1995	126
4.1.	Source of funds and nationality of researchers in the business enterprise sector..	148
4.2.	R&D funds from abroad intended for a compiling country's industry.....	150
4.3.	Technology payments and receipts between affiliates and non-affiliates	160
4.A1.1.	Manufacturing industries classified according to their global technological intensity, (ISIC Revision 3)	172
4.A1.2.	High technology products list – SITC Rev. 3 (Period 1988-95)	173
5.1.	Exports by foreign-CAs in the compiling country	191
5.2.	Imports by foreign CAs in the compiling country	191
5.3.	Exports involving parent companies and their CAs abroad.....	191
5.4.	Imports involving parent companies and CAs abroad	192
5.5.	Ownership-based framework of the US current account, 2000.....	204
