

Fernando Galindo-Rueda

Fernando Galindo-Rueda is a Senior Economist in the Economic Analysis and Statistics Division of the OECD Directorate for Science, Technology and Industry. He leads the Science, Technology and Innovation Indicators unit that is responsible for supporting the work of the OECD Working Party of National Experts on Science and Technology Indicators (NESTI). He is responsible for coordinating the upkeep and development of the *Frascati* family of internationally-adopted statistical standards for the measurement of R&D and innovation and oversees the delivery of a number of analytical projects and the publication of OECD publications in this area, including *Main Science and Technology Indicators* and the *R&D Statistics Database*.
