Information on Tax Identification/Taxpayer Numbers

SECTION I – TIN/TAX PAYER NUMBER Description

The TIN/TAXPAYER NUMBER is a numeric code which is issued to Individuals, and Entities upon application.

The codes are generated by the Tax Software (SIGTAS) in sequential order, and once issued are used by Individuals in respect of all tax types. The TIN is concatenated with the one digit check code. The Taxpayer Number is the first six numbers of the TIN.

A TIN would only change if the circumstance of a business change. For example the business changes from being a Sole Proprietorship to being a Corporation in which case a new TIN would be issued. The TINs issued to the Individuals do not change.
