Response:

As stated above, the TIN used for individuals is their Civil ID numbers which has been provided by the Public Authority for Civil Information (PACI). Therefore, when an individual's TIN needs to be verified, the Ministry will contact PACI for the verification of the Civil ID number. As for TINs for entities which are issued by the Ministry, those are available internally in the Ministry only.

The only verification tool used in the Tax Dept. to verify Tax Residency Certificates (which contain Civil ID numbers for individuals as TINs and also the TINs for entities) is the scanning option in the Ministry of Finance's app which can be used to scan the QR codes on electronically-issued Tax Residency Certificates to verify the whole certificate's authenticity. The app can be downloaded from the App Store for iOS devices and from the Google Play Store for Android devices.
