We understand that the court proceedings are still pending since the MAP cases do not progress. On the basis that the MAP cases and the APA case bears similarity, no progress was recorded on such APA case.  APA filed during 2023 (Column 2): The Malta Competent Authority received an APA application in December 2023 and such submission was made under the domestic law of Malta. Whilst such APA case was recorded under column 2 we would like to remark that the APA case is not yet accepted since additional information is still pending. Furthermore, the application is counted as 3 APA cases since the larger number of taxpayers/entities in the other jurisdiction amounted to 3 entities. This is in accordance with the MAP Statistics Reporting Framework since the APA Statistics Reporting Framework does not specify on how these should be counted in such instances.  Average time taken (Column 7): Column 7 is marked as 0 since no APA cases were closed during 2023

Definition of a MAP case and counting of MAP cases		(i). A MAP case is a case presented to the Maltese Competent Authority where the taxpayer considers the actions of a contracting state to result or will result in taxation not in accordance with the treaty. (ii). Malta received bilateral MAP applications pre-2016. Hence each application is counted as one.												
Category of cases		Attribution/Allocation cases refer to transfer pricing cases while other cases include all other cases not classified as attribution/allocation.												
Potential mismatches between 2022 start inventory and 2021 end inventory		There are no deviations from the number of pre-2016 cases remaining in MAP inventory on 31st December 2021 compared to the reported opening 2022 start inventory.												
Notes on the computation of average time		The start date for the pending pre-2016 MAP case was in accordance with the OECD MAP statistics reporting framework.
