

8th LAC Fiscal Policy Forum

Santo Domingo, Dominican Republic
26-27 September 2018

The 8th LAC Fiscal Policy Forum will bring together governments and selected experts in the region to discuss key tax policy challenges faced in Latin America and the Caribbean. Serving as an incubator for tax policy ideas, this year's edition will discuss whether the upswing in economic growth across the LAC region can help countries to strengthen the **sustainability of their public finances** and thereby facilitate long-term inclusive and sustainable economic growth. Specific attention will be given to **financing for sustainable development** across the region, the **taxation of the digital economy**, **environmental tax policy** and the role of **tax morale** in revenue collection. The discussions will build on lessons learned from **recent and ongoing tax reforms** in the region.

An invitation and a draft agenda will follow.
