In the OECD classification the term “taxes” is confined to compulsory unrequited payments to general government. Taxes are unrequited in the sense that benefits provided by government to taxpayers are not normally in proportion to their payments. Non-tax revenues are all other government revenues that are not classified as taxes. http://www.oecd.org/tax/tax-policy/oecd-classification-taxes-interpretative-guide.pdf

The Latin America and the Caribbean (LAC) and the Asia-Pacific (24) averages refer to the respective 2021 regional publication. For more information see oe.cd/revenue-statistics-in-asia-and-pacific and oe.cd/revenue-statistics-in-latin-america-and-the-caribbean.
